TWIN FLAMES

Within the realm of extraordinary bond between twin flames, in our second volume we dive into the art of cultivating sacred union, whether it is platonic or romantic.

We explore numerous facets which we express at the core of this collection through pieces made for moments of inner and outer union, ranging from profound unexplainable energy to unconditional love. These elements are shown through our combination of soft femininity and modern, quirky edge, that still maintains our well-known comfort. Inclusive of asymmetrical pieces to show that we are all unique in our own way and each connection we experience in life will be different.

In this collection we make room for colors that reflect stepping into a state of harmony with others as one embraces turmoil that is followed by serenity. Tones aligned to our reflections of what evokes a sense of grounding and tranquility - from the soft colors of a sandy beach to the dark tones of a mossy rainforest. We celebrate acknowledging the wounds of the deepest darkest self through colors you've never seen before in Tale of Two.

Maintaining the feel of clothing that makes you feel the energy of flow, made for movement and making a statement in a subtle way. We bring in the art of ceremonial living as everyday life. Duality remains at our core, even in this theme of twin flames, so we brought back our old print in a reinvented way, with new colors that represent this progress in our current life journey.

WHEN YOU SEE THESE SHAPES OVER A STYLE THAT YOU LIKE, IT MEANS ITS ALSO AVAILABLE IN THESE SELECTION OF COLORS AND PRINT!
